CH-LF76820B Charger Specifications

Dimensions: 12 5/16" X 8 1/4" X 6 3/8" (314mm X 208mm X 161mm)

Weight: 14.7lbs (6.65kg)

Maximum output voltage: 87V

Maximum output current: 20A via Anderson SB50 style connector

Input voltage: 99 – 121 Vac via NEMA 5-15 plug

Input circuit: Dedicated 20A 120Vac circuit required

Input frequency: 45 – 63 Hz

Input fuse: 3AG type 25A (spare included)

Efficiency: 70% - 93%

Isolation: 1,500 Vac

Operating conditions: ≤6560ft (≤ 2000M)
14°F to 122°F (-10°C to 50°C)
5% - 70% Relative Humidity

Indicators:

Charge LED – Red: < Charge 90%
Orange: > Charge 90%
Green: Charge 100%
Power LED – Green: Connection Good
Red: Connection Fault

Cooling: Forced Air
